

Locally Led Emergency and Recovery Action in Pakistan (LEAP)

Pakistan Floods 2022 - Situation Report#4

27 January 2023

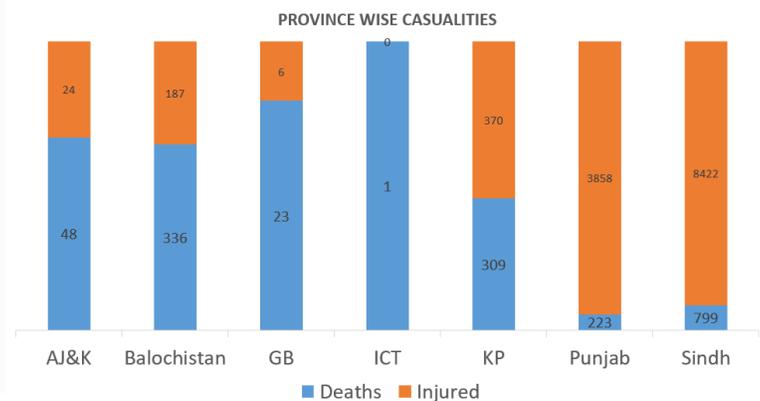

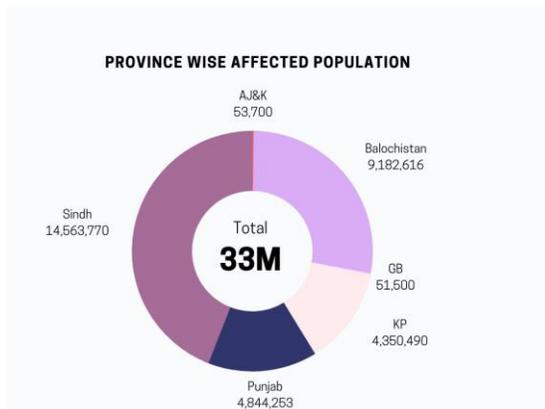

Highlights

- USD 9 Billion has been pledged by various donors for Pakistan to recover from Floods 2022.
- The receding floodwaters have allowed millions of people to return to their homes however, standing floodwater remains in ten districts of Sindh and two districts of Balochistan provinces.
- As per UNICEF [report](#) approximately 4 million children are still living near contaminated and stagnant floodwaters, while acute respiratory infections among children have increased in flood-stricken areas.
