# Summary of Damages Floods 2022

## PROVINCE WISE RELIEF

## Monsoon 2023 Damages

### Highlights

1. The pre monsoon rains of 2023 have further affected the people living in temporary shelters.
2. The food insecurity among flood affected household has increased due to high inflation especially in rural areas.
3. Lack of enough livelihood interventions in the affected population.
4. No relief has been started in the communities affected by pre monsoon rains.
